

FROM: WOODY ROGERS - TIRE RACK
DATE: February 26, 2026
SUBJECT: 2026 Tire Rack One Lap of America Tire Program

Eligible Tire Brands for 2026

BFGoodrich	General	Pirelli
Bridgestone	Goodyear	Toyo
Continental	Hankook	Yokohama
Falken	Kumho	
Firestone	Michelin	

Each vehicle must be equipped with tires from a single brand meeting these basic One Lap of America event rules:

- UTQG Treadwear Rating of 200 or higher
- Tires must begin the event with at least 7/32" tread depth
- One set of tires must be used throughout the event
- Teams are allowed to carry one emergency spare per wheel size
- Streetable Track & Competition DOT Tires as categorized by Tire Rack are not permitted, regardless of Treadwear Rating, tread depth, or what tires were fitted as Original Equipment

Complete event rules can be found at www.onelapofamerica.com

Tire Sponsorship Support

The eligible tire brands have agreed to sponsor competing teams using their product by providing a 25% rebate on up to 10 tires for their One Lap of America competition vehicle. The 25% rebate will be based on the tire price at the time of purchase. It does not apply to the cost of any other products, taxes, shipping or state tire fees.

Additional tires may be purchased but will not be eligible for the rebate. The tire sponsorship rebate will be issued as a credit invoice, processed once the event is underway and event organizers confirm the team's vehicle has begun competition. Teams not competing in the 2026 event will not be eligible to receive the rebate.

To be eligible for the rebate all competition vehicles must display tire manufacturer's decals in the designated locations and matching the tires being used during the event. These decals will be provided at event registration, and must be placed on both sides of the vehicle on the front fender above the wheel opening. Each decal is approximately 18" – 20" long, so please make sure there is sufficient space available on the fenders prior to arriving at registration. Vehicles with open wheels or unusual fender configurations (Ariel Atom, Porsche GT3 RS, etc.) should see One Lap of America tech officials for proper decal placement instructions. Tire manufacturer decals must be in place in the designated locations to be eligible for the 25% rebate.

Tire Selection

Track & Competition tires are excluded due to their typically shallow initial tread depth, lower treadwear and minimalist tread patterns that are not well-suited to the variety of weather conditions found along the One Lap route (i.e. wet, cold), or the total amount of wear experienced during the week of competition & transit miles.

Examples of ineligible Track & Competition tires are:

Goodyear Eagle F1 Supercar 3R

Kumho Ecsta V720 ACR

Hoosier Track Attack Pro

Michelin Pilot Sport Cup 2 R

Pirelli P Zero Trofeo R

Toyo Proxes R888R

Most teams are best served choosing tires from these tire performance categories:

Extreme Performance Summer

Max Performance Summer

Ultra High Performance Summer

Order Processing

To place your One Lap of America tire order, contact a Tire Rack retail sales specialist by phone at (888) 370-8473 during normal business hours. **Identify yourself as a One Lap of America competitor so your order can be designated for tire branding and to process the tire rebate.** Website orders cannot be processed at this time.

To assure that all tires are standard street legal tires as sold to the public all teams are required to use tires that come from Tire Rack's inventory. Tire Rack will permanently mark or hot brand competitor tires so they can be easily identified by One Lap officials.

Tires must be purchased and installed on competition vehicles before they arrive for registration. This allows for break-in time, and minimizes the possibility of newly-mounted tires slipping on the wheels, which may cause them to become out of balance.

If you are planning to have tires installed at Tire Rack prior to the event, Installation must be completed by Thursday, April 30th so you will have sufficient time to break in your tires. Tire Rack will not be able to do One Lap tire installs on Friday, May 1st except on an emergency need basis.

Tires purchased through this program and marked for One Lap competition cannot be returned, even if they have never been mounted.

Teams may also use tires branded for the previous year's event (2025) as long as they: A) are in road- and track-worthy condition, B) are from a participating manufacturer this year, and C) have at least 7/32" tread depth at the start of the 2026 event. Tires from the previous year will not be eligible for the 2026 event rebate. Teams are advised to inspect tires carefully to ensure they can withstand the rigors of this event.
